Organizational Sustainability

- The Flourish Wellness Project is continuing to offer weekly *Wellness Wednesday* online workshops for all students and staff with a special focus on strategies to help cope during the COVID-19 pandemic. The next workshop “Coping during COVID-19 – Checking In” will be held on June 24th.
- The Kofoed family recently donated \$60,000 to the “Our Students, Your Health” campaign to support the completion of the new Health Sciences Centre.
- Kelowna Chevrolet is investing in future health-

Program Advisory Committees at Okanagan College

June 2020

About Okanagan College Program Advisory Committees

Okanagan College establishes Program Advisory Committee (PAC) for certificate, diploma or degree programs or, where appropriate, for a group of relatedew 7.66 0c13(r p)-g(u)-13()f4-3(u)-1cm(ew s)-14.0

into the workforce. Program advisory committees for other diploma programs are under review at this time.

Okanagan School of Business

The Business Administration, Commercial Aviation, and Office Administration programs each have active program advisory committees. There is a total of 27 community members serving on these committees.

Science, Technology and Health

There are 18 programs within the Science, Technology and Health portfolio, of which 15 have program advisory committees. There are a total of 129 community members serving on these committees. The Associate of Science Degree and the Bachelor of Science in Nursing (first two years) do not have program advisory committees, as they are university transfer programs that do not provide direct entry into the workforce. The Human Kinetics program is also primarily a university transfer program, but does offer some opportunity for graduates to enter the workforce after completion of the diploma. The need to establish a program advisory committee is currently under review.

Trades and Apprenticeship

There are 11 programs within the Trades and Apprenticeship portfolio, of which 10 have program advisory committees. A total of 56 community members serve on these committees. The Trades, Technology Teacher Education diploma program has had a Steering Committee that has provided advice on curriculum. Enrolment in this program is currently suspended.

Continuing Studies and Corporate Training

Continuing Studies and Corporate Training has 29 certificate programs that are offered on a regular basis. Of these, 10 programs have established advisory committees that are brought together when potential changes to programs are being proposed (the other certificate programs are not of a size that merit a program advisory committee). A total of 193 community members serve on these committees.

Regional Advisory Committee (RAC) Annual Reports

Shuswap-Revelstoke (~~QRRRDa~~)

The

North Okanagan (Jul 18/19)

The Regional Advisory Committee provides the Vice-Chancellor with advice regarding the progress of the strategic plan, including the annual report.

The Vice-Chancellor reports to the Regional Advisory Committee on a regular basis. The Vice-Chancellor also reports to the Board of Governors. The Vice-Chancellor is responsible for the implementation of the strategic plan and the annual report.

The key strategic initiatives are:

- Physical Resilience Project
- Voted in 2020 -21 and the year plan
- Student Success
- Strategic Initiatives
- International Strategy
- Tripartite Harmonization

The committee provides advice to the Vice-Chancellor on the annual report and the strategic plan. The committee also provides advice on the annual report and the strategic plan.

The committee will continue to provide advice to the Vice-Chancellor on the annual report and the strategic plan.

Central Okanagan (P 18/19)

The committee was held on a regular basis during the year. The committee provided advice to the Vice-Chancellor on the annual report and the strategic plan. The committee also provided advice on the annual report and the strategic plan.

There are 12 members of the RAC, with a mix of backgrounds. The RAC members are: [List of names and titles]. The RAC members are responsible for providing advice to the Vice-Chancellor on the annual report and the strategic plan.

Historically there were two analytical courses, CHEM 224 (for WET) and CHEM 226 for science students. In 2011, the WET analytical course and the chemistry student's course were combined, due to low enrollment in CHEM 226 and a WET program revision. This has posed a challenge, as the WET and Science students have considerable difference in background knowledge and substantial difference in future application of analytical chemistry in their careers.

Now that enrollment of Science Students in CHEM 226 has increased and consistently remained at a high level, splitting the Analytical Chemistry course into two courses, one geared towards the Water Engineering Technology students (CHEM

connection between academic programming and career/education pathways, (2) increase specific transfer credit to partner institutions, and (3) enhance career preparation with additional coursework and work-related experiences.

Over the past several years, there have been a significant number of curriculum changes across the province. This proposal responds to (1) sector-wide changes from 6-credits to 9-credits of Introductory Anatomy and Physiology Coursework, (2) a shift away from sport specific Applied Methods Courses (1,3,0) to a more overall movement education experience course with Physical Literacy for Life (2,2,0) (3) enhanced work-integrated learning and applied

At the completion of the program outlined for the Health and Fitness stream, students will be eligible to apply for industry credentials as a British Columbia Recreation and Parks Association (BCRPA) Registered Personal Trainer and/or a Canadian Society of Exercise Physiology (CSEP) Certified Personal Trainer. This will prepare students to lead fitness activities and provide fitness and lifestyle counselling services to apparently healthy individuals. Please note that students must apply to external agencies to obtain these industry credentials. External agencies may require students to complete additional written examinations and/or practical competency evaluations and pay additional fees.

Proposed:

Program overview:

Kinesiology is an academic discipline which involves the study of physical activity and its impact on health, society, and quality of life. It includes areas of study such as exercise science, athletic training, socio-cultural analyses of sports and society, sport and exercise psychology, fitness leadership, physical education-teacher education, and pre-professional training for physical therapy, occupational therapy, medicine and other health related fields.

The Kinesiology Diploma program helps students build skills that they can apply to a variety of career options in fitness, recreation, sport, education and health. Course credits transfer towards Bachelor degree programs in British Columbia and elsewhere.

Students develop skills for general employability and academic success including information literacy, written and oral communication, numeracy and computer skills, critical and creative thinking, leadership and interpersonal skills, and professional skills.

Students may become eligible to apply for industry credentials during or after program completion. External agencies may require students to complete additional written examinations and/or practical competency evaluations and pay additional fees. The department website includes links to relevant agencies.

All students register for courses individually. The first semester includes five common courses. Students then follow the program outlined for one of the diploma options below:

- Kinesiology Diploma - Fitness Option ([hyperlink](#))
- Kinesiology Diploma - Health Science Option ([hyperlink](#))
- Kinesiology Diploma - Recreation Option ([hyperlink](#))
- Kinesiology Diploma - Education Option ([hyperlink](#))
- Kinesiology Diploma - General Studies Option ([hyperlink](#))

Students are responsible for confirming that all graduation requirements and residency requirements are met before graduation.

A Kinesiology Co-op option may be available between Year 1 and Year 2 (May - August) for eligible students. Please consult with an education advisor ([add contact or hyperlink](#)), cooperative education ([add contact or hyperlink](#)) and/or the department chair ([add contact or hyperlink](#)) to address any questions.

www.bctransferguide.ca

The [BSc in Kinesiology](#) - [BSc in Human Kinetics](#) is designed as a pathway to a Bachelor's Degree in Kinesiology, Human Kinetics or related field and subsequent application to a Master's Degree in Rehabilitation Sciences or other allied health profession. Select elective credits that will satisfy degree graduation and/or admission requirements.

The [BSc in Kinesiology](#) - [BSc in Human Kinetics](#)

The program outlined is for students interested in completing a 2-year diploma to become a fitness program leader (e.g. certified personal trainer) to help develop and maintain the health of our community via participation in physical activity.

Math requirement:

A minimum of 50% in any of:

Precalculus Grade 11

Foundations of Mathematics Grade 11

Principles of Mathematics 11

Adult Basic Education MATH 011

Adult Basic Education MATH 084 and MATH

085

Adult Basic Education IALG 011

Mature Applicants: Applicants who do not have secondary school graduation may apply as a mature student provided that they are at least 19 years of age and have not attended secondary school on a full-time basis for a minimum period of one year. Mature applicants will be subject to the same course entrance requirements that apply to regular applicants. The above courses may be taken through Okanagan College's Adult Basic Education program, the Ministry of Education Correspondence Branch, or a secondary school studies program.

Additional Admission Requirements

All applicants must submit an Okanagan College Human Kinetics Verification of Experience Form documenting a minimum of one season of competitive sport participation or 50 hours of participation in regular physical activity, within the last 5 years.

All applicants must submit an Okanagan College Human Kinetics Medical Clearance Form, documenting medical clearance for participation in unrestricted physical activity or for participation in progressive physical activity with specific limitations or exclusions.

Applicants are advised that students in this program engage in vigorous physical activity as part of their laboratory practice and applied methods courses. Students will act both as physical activity leaders and participants. Students are expected to develop and maintain a good level of physical fitness throughout the program.

Students may be required to travel to campus fitness and recreation facilities in the local area, and will require appropriate transportation.

Several computer-based assignments are included throughout the program. It is recommended that students have basic computer skills before entering the program. Students who do not have personal computers will have access to computers at the college computer

	<p>Co-operative Education: To become eligible for the co-operative education work term, students must complete all of the first year courses for one of the fitness, health science, recreation or education option with an overall GPA of 70%. The Cap work experience is not available for students completing the general studies option.</p>

"BE IT RESOLVED THAT the Okanagan College Board of Governors approves the program revision s Basic Accounting Certificate as recommended by Education Council and as presented."

6

6

x 6

x 6

6

The Basic Accounting Certificate has run successfully at all of the Okanagan College campuses for many years but the program has not seen any revisions for a significant amount of time. The program has not been reviewed for so long that the original set of course outlines can't be located. Over time, campuses have been using a different outline and a consistent outline is required for the certificate. There has also been multiple requests from students to put the certificate online.

6

| B C

6

	Over the years, the course outline for BAC 12 evolved at each campus resulting in three different course outlines with different learning outcomes. The course description was consistent across campuses, but the learning outcomes and assessment varied. The proposed learning outcomes and assessment are the result of each campus reviewing their outlines and agreeing on an outline based on feedback from instructors, stakeholders and the Business Department.
