

1. **Mandatory Admission Requirements:** these must be completed **BEFORE** admission to the program.
2. **Program Requirements:** these must be completed and submitted to the Program Chair or designated instructor **during the first week of the program**.

**Mandatory Admission Requirements:**

and accurate following (see table Chart X and page 10 of 10). This information must be submitted to the **Office**

**Program Requirements:** The Health Program (BCN, BN, UCA, TAD, Pharmacy Technician) must be completed and submitted to the Program Chair or designated instructor **during the first week of school**. If this is not possible by the first week, it is your responsibility to discuss with the Program Chair when the form can be handed in.

**BC Health Authorities** in BC require all individuals working in health care. Applicants are advised that including students, to follow the **BC health program** and complete the **Health Authority** form.

record.

### Process for Completing the Okanagan College Immunization Record

The student should make an appointment with their health care provider, bring to that appointment a completed and signed by the health care provider.

### Influenza Vaccines (aka flu vaccine)

available generally in November each year.

Students, volunteers, contractors, vendors and visitors will be required to protect against

influenza by either receiving a flu shot or wearing a mask while in a patient care area during the

peak months of November.

All nursing students should have a TB skin test within the past 6 months prior to commencement in the program, unless they are a known positive reactor.

Chest X-ray: Those with a known positive reaction in the past should have a chest X-ray unless there is proof of a previous chest X-ray results within 6 months.

If the skin test is positive, a chest X-ray is required. The report of this X-ray must be provided with this document and it must be current to within 6 months of entry into the program.
