# Learning Outcomes

Upon completion of this course students will be able to

- explain the genesis of project management and its importance to improving the success of projects.
- describe current project management methodologies.
- demonstrate analytic skills in assessing alternatives, financial implications, and the level of risk in decisions.
- critically evaluate project management strategies of companies and have an opinion as to their effectiveness.
- demonstrate the use of a professional project planning tool.
- implement key project management concepts by planning a major group project.
- professionally report and communicate project status using appropriate structure and

# **Evaluation Procedure**

Quizzes, Assignments & Participation	15%
Term Project	20%
Mid-term Exam	30%
Final Exam	35%
Total	100%

# Notes

Assignments are posted in the presentation slides, and made available on Moodle the day of the relevant lecture or sooner.

All assignments must be handed in to the professor on or before the prescribed due date.

Typically, lectures will be on the first class session (or first part of class) during the week, and lab (practical) sessions will be on the second class day (or second part of class).

Assignments and updates will be given in class.

Please note that the exams in this class are Internet-based (via Moodle). In the event of Internet or computer system failures, make-up exams may be scheduled, or the instructor may proportionately re-allocate the related marks to the other categories.

# **Required Texts/Resources**

Revised An Introduction to Project Management, Fourth Edition, Kathy Schwalbe, Schwalbe Publishing, 2013.

## SKILLS ACROSS THE BUSINESS CURRICULUM

The Okanagan School of Business promotes core skills across the curriculum. These skills include reading, written and oral communications, computers, small business, and academic standards of ethics, honesty and integrity.

### STUDENT CONDUCT AND ACADEMIC HONESTY

### What is the Disruption of Instructional Activities?

At Okanagan College (OC), disruption of instructional activities includes student "conduct which interferes with examinations, lectures, seminars, tutorials, group meetings, other related activities, and with students using the study facilities of OC", as well as conduct that leads to property damage, assault, discrimination, harassment and fraud. Penalties for disruption of instructional activities include a range of sanctions from a warning and/or a failing grade on an assignment, examination or course to suspension from OC.

## What is Cheating?

"Cheating includes but is not limited to dishonest or attempted dishonest conduct during tests or examinations in which the use is made of books, notes, diagrams or other aids excluding those authorized by the examiner. It includes communicating with others for the purpose of obtaining information, copying from the work of others and purposely exposing or conveying information to other students who are taking the test or examination."

Students must submit independently written work. Students may not write joint or collaborative assignments with other students unless the instructor approves it in advance as a group/team project. Students who share their work with other students are equally involved in cheating.

#### What is Plagiarism?

Plagiarism is defined as "the presentation of another person's work or ideas without proper or complete acknowledgement." It is the serious academic offence of reproducing someone else's work, including words, ideas and media, without permission for course credit towards a certificate, diploma, degree and/or professional designation. The defining characteristic is that the work is not yours.

"Intentional plagiarism is the deliberate presentation of another's work or ideas as one's own." Intentional plagiarism can be a copy of material from a journal article, a book chapter, data from the Internet, another student, work submitted for credit in another course or from other sources.

"Unintentional plagiarism is the inadvertent presentation of another's work or ideas without proper acknowledgement because of poor or inadequate practices. Unintentional plagiarism is a failure of scholarship; intentional plagiarism is an act of deceit."

## What are the Students' Responsibilities to Avoid Plagiarism?
